

Saif Narpali

FRONT-END WEB DEVELOPER (REACT.JS | NEXT.JS)

About me

Hi, I'm Saif. I'm a highly passionate *self taught* web developer with a love for turning designs into fully functional responsive pixel perfect websites. I have **2 years** of experience based on personal/freelance projects and 1 year experience working professionally. I don't like to define myself by the work I've done. I define myself by the work I want to do. Skills can be taught, personality is inherent. I prefer to keep learning, continue challenging myself, and do interesting things that matter.

SKILLS

- HTML5
- REACT.JS
- REDUX
- CSS3
- NEXT.JS
- REACT QUERY
- JAVASCRIPT
- TYPESCRIPT
- MATERIAL UI

EXPERIENCE / PROJECTS

Unico Connect (Frontend Engineer)

April 2022 - Present

Unico Connect is a software development agency which provides both code and no code solutions for products. My key role was to produce high quality software products using React/Nextjs integrated with no code backend platform Xano. Collaborating with a team on multiple projects based on code modules as per the development roadmap and wireframes.

Dumbits Trivia

Techstack: (Next.js, Redux, Xano, Material UI, FFMPEG)

[Dumbits](#) is a trivia based game app where users can upload video questions and other users can participate to gain points. Later these points will be redeemed against prize offers. The only rule is that the user has to be quick in answering quiz questions to get more points. The logic being more people play the quiz game, which increases the pot value of credits, which in return gives out more points.

Highlands Brain

Techstack: (TypeScript, Next.js, React Query, Xano, Stream Chat, Google TTS & STT, Material UI)

[Highlands Brain](#) is a personalised highly complex School system platform for the school named Highlands Charter which is based in California US. The school actively uses this web application to automate all their day to day tasks with ease including live attendance tracking system, Monthly compliance reports, Student agreements, Chat system for student and staffs interactivity and much more exciting things.

Highlands Charter School is a diverse community for social justice, serving the unserved, providing access to education, technology and communication to 21st century achievers. The Highlands Brain web app aims to unify a more seamless and supportive educational experience for students and staff.
